DETAILED ACTION

And

Notice of Allowance

1. **Claims 1, 5-7, 9, 10-13 and 16-28** are allowed.

Terminal Disclaimer

2. The terminal disclaimer filed on 8-3-2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of Patent Number 6,697,773 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

3.1 Independent Claims 1 and 7 are non-obvious over the prior art. The following limitations, in combination with the other limitations are non-obvious improvements over the prior art, "*condition computation is a binary value that evaluates to either TRUE or FALSE,*" in combination with "*an assignment decision node (ADN) that selects a value from a set of input values computed by the assignment value portion based upon the conditions computed by the assignment condition portion.*" In view with Applicant's arguments and the instant amendments the prior art of record fails to anticipate or make obvious, the annotation of an Assignment Decision Diagram as disclosed and defined and claimed by Applicant's current claim language and specification. Further, the method of creating the structure of the Assignment Decision

Diagram and then annotating that diagram with Assignment Decision Nodes and then selecting a value from a set of input values based on the evaluation of a data flow path, is a non-obvious structural improvement over the previous methods of using an ADD to manipulate a behavioral model during circuit simulation. Further, an updated search of the PTO Patent database, ACM, Google and IEEE have failed to disclose any new prior art references that anticipate or makes obvious the claimed limitations as disclosed in the instant amendments.

3.2 Dependent Claims 5, 6 and 9 are allowed as they depend upon an allowed base claim.

3.3 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
